# INTRODUCING REDI-ROCK XL

## NEW Hollow Core Retaining Blocks

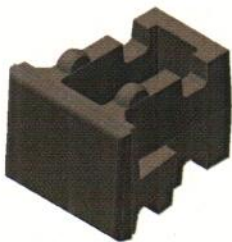

Redi-Rock, the complete retaining wall solution, just got more robust with the **NEW Redi-Rock XL Hollow Core Retaining Blocks** that allow you to build taller gravity walls for less cost per square foot. Redi-Rock XL blocks interlock with all existing blocks in the Redi-Rock system, so you now have more tools to build the most efficient retaining wall solutions on the market!

### ADVANTAGES OF REDI-ROCK XL

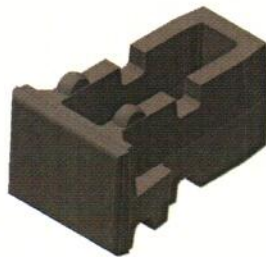

- Block widths of 52, 72, and 96 inches
- Doubles the face coverage to 11.5 square feet per block for faster installation
- Improves capacity to build taller gravity walls for less cost per square foot
- Interlocks with all other blocks in the Redi-Rock system
